*A Request to the People of the
Town of East Kingston*

This is a report from the Police Department. What isn't included in this report is the work hours by our chief. It totals 190 hours, 32 of these hours were lost from my regular job.

There are also expenses to maintain my private vehicle such as gas, oil, etc., which now are unpaid by the town.

I feel strongly that the town should compensate and meet the expenses of the police chief as they do the special officers.

Respectfully submitted,

RICHARD ATKINSON

Chief of Police

***Report of the Forest Fire Warden
and
District Chief***

Most of us who live in New Hampshire and the thousands of vacationists that visit us every year love the State for the variegated woodlands that encircle our clean lakes and clothe the hills and mountains. Most of us appreciate these values, but still there were enough careless people among us to cause over 880 grass and woodland fires to start in 1965. True this was a much dryer than normal year but this should have meant the use of extra care. Fortunately the fire fighting forces have held the line against such careless acts. It is up to each one of us to be ever mindful that a spark or flame is a potential fire.

WE MUST BE CAREFUL:

1. To teach our children the danger in lighting matches.
2. To never discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish preferably at the Kingston dump. If you must burn rubbish or brush:
 - a. Always get a permit to burn from the warden.
 - b. Start your fire late in the day after 5:00 p.m.
 - c. If burning a field or brush have equipment and adequate tools held on hand.

The heat from your fire creates its own draft to spread fire.

Our carelessness with fire is costing our State and Towns thousands of wasted dollars in suppression and hundreds of acres of destroyed woodlands. Yours never to enjoy.

We received from the State Department of Resources and Economic Development a 1956 GMC 1200 gallon tank truck for use of the town.

This truck has been sanded, painted and put in first class repair. These repairs were paid for out of Lobster Festival Funds and is now ready for use in the spring fire season.

The Warden and two Selectmen attended the county meeting in Chester for information on laws pertaining to outdoor fires, permits and obligations of Wardens and Selectmen.

The Warden and Deputy Wardens attended the all day training school at the County Farm in the spring, where they received instructions on forest fire fighting techniques.

Auditors

Report of Superintendent of Schools

To the School Board of East Kingston, N. H.:

I herewith submit my eighteenth annual report as Superintendent of Schools. May I express my sincere thanks to each member of the East Kingston School Board, teachers, supervisors and parents for their cooperation during the year.

The school year 1965-66 opened with the following teaching staff:

Mrs. Margaret Tilton, Principal of
Brown's Academy, Grades 3-4

Mrs. Blanche Loch, Grades 1-2

Mrs. Rita Jackson, Grades 5-6

Mrs. Eleanor Henry, Music

Mrs. Virginia Holder, Nurse

Mrs. George Cappuccio, Handwriting

Mrs. Rita Jackson, a graduate of Tufts College and of Boston University, replaced Mrs. Nellie Brooks as a teacher of grades 5 and 6. Mrs. Virginia Holder was employed as the school nurse for the school districts of Kensington, Newfields, Stratham, Greenland and East Kingston. Exeter now employs Miss Shea and Miss Jean as school nurses.

The enrollment as of December 23 was as follows:

Grade 1— 16

Grade 4— 16

Grade 2— 8

Grade 5— 12

Grade 3— 16

Grade 6— 8

This is a total of 76 as compared to 78 on a corresponding date a year ago.

The tuition rates for 1966-1967 as approved by the State Department of Education and announced by the Exeter School Board are:

Estimated Per Pupil Cost	
for 1965-1966 for Senior High Students	\$518.06
Rental Charge	\$ 21.94
	<hr/>
	\$540.00
Estimated Per Pupil Cost	
for 1965-66 for Junior High Students	\$498.06
Rental Charge	\$ 21.94
	<hr/>
	\$520.00

It is gratifying to have the State Board of Education and the school districts of Brentwood, East Kingston, Exeter, Kensington, Newfields, and Strat-ham accept the AREA School Plan after several months of study by the AREA Committee. This would appear to be a step forward in the direction of guaranteeing good education for the pupils in grades 7-12 in these school districts.

The Elementary and Secondary Education Act of 1965 provides funds for most school districts. Title 2 of the Act provides \$8,000.00 for Supervisory Union 16 to purchase library books and materials and audio-visual materials. These must be shared by all of the schools, both public and private, in the Union. An application listing the materials desired was submitted early in December.

Title I of the act provides funds for approved programs for educationally deprived children for those districts which are eligible. Eligibility is based

upon the number of families in a school district whose income was less than \$2,000.00 a year according to the 1960 Census and upon the number of welfare cases for dependent children in 1962.

The school districts of Exeter, Greenland, Newfields and Stratham have had funds made available to them pending the approval of projects. East Kingston and Kensington are not on the eligible list as submitted by the State Department.

A statement by Mr. Frederick King, Teacher Consultant for Supervisory Union 16, on some of the work which he is doing in the area of curriculum follows:

"The function of the teacher consultant is to help schools do their work better. The specific ways in which this service is provided vary widely. Among the activities are included observing and participating in classroom work; helping teachers understand children; interpreting and using the findings of research; helping to prepare curriculum guides; locating and procuring materials for teachers; planning meetings and work-shops for in-service education; helping schools 'pioneer' in the use of new materials and methods; helping to interpret curriculum change to the staff and the public; and helping to appraise educational progress.

The development of curriculum in many fields of study at the public school level has been dynamic and explosive during the past decade. Science and mathematics are the two most obvious areas of curriculum change. Both have received a great deal of attention in this school system. Educators are now taking a look at the social studies. It is ironic that the social studies, the area most vitally and directly concerned with social forces and trends, should be

one of the last segments of the curriculum to come under careful study throughout school systems.

This fall our teachers spent an afternoon and evening in a workshop designed to acquaint them with some recent developments in the social sciences. A course has been conducted by the University of New Hampshire, another step in the 're-education' of our staff in social studies teaching. A display of books was arranged which included many new reference books in the social studies field.

New ideas and new approaches are plentiful; new instructional materials, including textbooks, are found in quantity and variety. The New Hampshire State Department of Education will soon issue a new guide in social studies. It is my job now to organize the staff in a complete study of the present social studies curriculum; to examine curriculum projects underway in New Hampshire and the country as a whole; and to set up a revised course of study for our pupils based upon the best of the present projects and the latest research in this field.

This is not an easy task, and will not be done 'overnight'. Time is an important factor, and this, teachers have in limited quantities after all the rest of their educational activities receive a share. Many discussions, hours of meetings, abundance of ideas on reams of paper, and the slow democratic process of curriculum study will take place before this school district will have a new social studies curriculum guide.

This report reflects only one of the areas of work of the teacher consultant — that of curriculum change. This is an important one as it reflects not only what will be taught in our classrooms, but, in many cases, how it will be taught. Certainly this is

a responsibility not to be taken lightly."

The scholarship awards for the school year 1965-66 were presented by the Trustees of Brown's Academy to Ann Avery and to David Costa who were graduated from Exeter High School.

Any interested senior who desires a scholarship for next year should make application to Mr. Walter Evans, Chairman of the Awards Committee, or to the Superintendent of Schools.

I call your attention to the reports and tables which follow.

Respectfully submitted,

RAYMOND A. HOYT

School Health Report

To The Superintendent of Schools:

The School Health Service is designed to serve the physical and emotional health needs of all children in the school system — collectively and individually; and to promote an awareness among parents of these needs and of available help through this department.

The School Nurse offers leadership and guidance to the development and maintenance of the health program.

Following are some of the health services included in the East Kingston Elementary School Health plan this year.

Maintaining individual records of heights, weights, vision and hearing, physical examinations, histories of immunizations and diseases, and any special notes.

Vision and hearing testing.

Physical examinations and urinalyses—grades 1, 3, and 5, and all referred.

Follow-up of physical examination findings. If parents are not present, communications (personal or by letter) must be made. Also, conferences with the Principal and Teachers in relation to physical examinations, visual or hearing losses or other apparent problems.

Referrals for special services—crippled children; sight conservation; hearing; mental health; speech, dental, etc.

In general, Dental Health has been highlighted in the schools through demonstrations, clinics and education. The importance of dietary fluorides for

all children up to age 9, has been emphasized. Available — A dental Hygiene Clinic sponsored by the East Kingston Parent Teachers Association, in co-operation with The State Department of Health was successfully carried out in November.

Pre-school clinics.

Speech clinics.

HEALTH EDUCATION: Through education only, can we expect most favorable returns from our efforts to establish good understanding and practices of health, hygiene, and safety. Available through the State Department of Health, the University of New Hampshire, and other sources, are films, filmstrips and various helpful aids to enrich the health education curriculum. We endeavor to present these in conjunction with special class units at a time when our material will be most meaningful to the students.

Our needs are simple but real. The importance of a pre-school clinic for vision screening of children aged 3 to 6 years cannot be overemphasized. An all out effort will be made this spring to promote active community participation in a program for testing the vision of very young children. Success here, will depend largely upon the time contributions of 5 or 6 helpers in each community.

May I express my sincere appreciation to the individuals and the organizations who have helped in so many ways to make this a successful and productive year.

Report of the Music Supervisor

To the Superintendent of Schools:

As I officially retired from teaching last June, I did not expect to be writing this report for the Town of East Kingston. However, as another music supervisor was not available, I accepted the position for this year so that the schools might not be without a music teacher.

Routine classroom work took place throughout the year. This consisted of ear-training, rhythms, use of rhythm instruments, tonettes and the auto-harp, learning the fundamentals of music, including note reading, singing songs in unison and in parts, and participation in singing games, folk and square dances.

Record players and records are always available in both schools for listening or music appreciation.

New music books were purchased for Mrs. Jackson's pupils.

In April, Mrs. Tilton's students presented an operetta, "Grumbling Joe in Laughing Town," at the meeting of the Parent-Teachers' Association in the Town Hall. I should like to give special thanks operetta. To her much credit is due for its success. To all those who helped in any way, I am very grateful.

In December, Mrs. Jackson's pupils presented a Christmas pageant for their families in the classroom.

I wish to express my appreciation to the members of the Parent-Teachers' Association for their

gift to me of a purse of money, and to all those parents and children whose acts of thoughtfulness made my retirement memorable. My words of thanks are inadequate.

This year, in closing, I wish to thank Mr. Hoyt, the teachers and all those persons, adults and children, with whom I have been associated in any way, for my very happy teaching years in East Kingston.

Respectfully submitted,

Supervisory Union No. 16 Class

To the Superintendent of Schools:

The Union No. 16 class has fourteen members this year, 10 boys and 4 girls. The academic needs of these children are from kindergarten into the sixth grade levels. This is a wide range to be met and taught by one teacher.

Intergration with regular classes of the school in science, physical education, music, art and extra curricula activities is again the policy. Field trips for the younger groups are being used to enrich and to teach community services. The Boy Scout Troop meets regularly each Thursday at the Community Center. Phillips Exeter students are most faithful in handling the boys.

Each year the need for Special Classes is growing. Our children with educational problems should have the opportunity to work out these problems with a degree of success. Unfortunately, these children must meet failure early in school life before help is offered them. Thus, many enter the Union Class emotionally troubled.

The dissimilitude in ages, aptitude and achievement make high standards arduous to maintain. The necessity of much individual support, tutoring, and guidance causes inadequacies and gaps in the educational program. As mentioned in my report of 1965, a part-time assistant, who could work under me, would improve greatly the learning situation.
